NEW BEST FRIENDS

We are proud to present 6 new members of the Friends collection.

The well-known Best friends are back in new colors and expressions together with a new theme of playful Jungle friends.

All friends are handmade in natural fabrics as linen and cotton. Each animal has beautiful embroidered details – and of course the Monkey Friend can hang in the trees with his magnet hands.

You can add beautiful accessories to the collection to expand the play and start the stories. You will find the big collection of clothes and furniture for the Friends on our webpage.

HIKER MOUSE – FROM MEXICO TO CANADA

The Maileg Hiker mouse is walking from the Mexican border to the Canadian border via The Pacific Crest Trail which measures 2650 miles (4265 kilometer) or 139.920.000 mouse steps.

He has his equipment ready for all the adventures that he will have during the hike through mountains, woods and deserts.

He likes setting up his tent in a new campsite each night and always checking out the area with his flashlight.
